

**Contents**

1. Soil hydrology for ecohydrology in drylands: examples from Tunisia, China and Cape Verde Islands. A review  
*Donald Gabriels, Wouter Schiettecatte, Mohamed Ouessar, Chris Mannaerts, Wim M. Cornelis, Huijun Wu, Koen Verbist, Dianxiong Cai*..... 183-193
2. The influence of wind on cyanobacterial bloom development in shallow, lowland reservoir in central Poland  
*Katarzyna Izydorzyc, Małgorzata Tarczyńska* ..... 195-203
3. Bioaccumulation of heavy metals in aquatic bryophytes from streams in the Sudeten Mountains (Poland, Czech Republic) and the source area of the Ebro (Spain)  
*Aleksandra Samecka-Cymerman, Krzysztof Kolon, Alexander J. Kempers* .....205-213
4. Chemical changes and nutrient release during decomposition processes of mature leaves of *Nuphar lutea* (L.) Sibith. & Sm under laboratory conditions  
*Agnieszka Klink*..... 215-222
5. Production and elemental composition of floating leaves of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sibith. & Sm in selected lakes in West Poland  
*Agnieszka Klink*..... 223-229
6. Influence of methyl mercury compounds of natural origin on feeding behavior in two species of freshwater planarians  
*Igor Valerievich Medvedev, Viktor Trophimovich Komov*.....231-235
7. Chromosomal studies of *Zoarces viviparus* L. (Zoarcidae) and *Myoxocephalus scorpius* L. (Cottidae) from different parts of distributional area  
*Peter N.Yershov*..... 237-243
8. Changes in fish populations in Danube delta lakes: effects of hydrology and water quality change. Review of results and potential for rehabilitation  
*Ion Navodaru, Mircea Staras, Anthonie Dirk Buijse, Joep J. De Leeuw*.....245-256
